

LS-88 Quick Start Guide

How to Set Up Your ListenIR Portable System

1 Your Portable ListenIR System Comes with the Following Products

- LT-84 ListenIR Transmitter/Radiator Combo
- Power Supply
- Tripod
- Microphone
- LR-4200-IR IDSP Receivers
- Universal Ear Speakers
- Neck Loop/Lanyards
- 4-Port USB Charger
- USB to Micro-USB Charging cables
- Assistive Listening Compliance Sign
- Portable IR Carrying Case

2 Transmitter & Microphone Set-Up

Step One: Remove the LT-84, power supply, tripod and microphone.

Step Two: Screw the tripod into the bottom of the LT-84.

Step Three: Plug the power supply into the back of the LT-84.

Step Four: Plug the microphone into the back of the LT-84.

Step Five: Plug power supply into an outlet. Turn on power switch.

Step Six: Make sure the microphone is placed close to the sound source.

Step Seven: Turn the volume all the way up.

PRO TIP:

Make sure that the LT-84 is not concealed behind walls, curtains, or treated glass, as Infrared light needs a clear line-of-sight to the receiver for the best performance.

3 Listening with the iDSP IR Receiver

Step One: Plug the Neck loop/lanyard into both audio jacks on the iDSP IR receiver.

Step Two:
For Listeners Using Ear Speakers: Plug the ear speaker into the audio jack two thirds up the Neck loop/ lanyard, then place the Neck loop/ lanyard around the listener's neck, and the speaker on the ear.

For Listeners with Telecoils: Telecoil users do not need an ear speaker. Place the Neck loop/lanyard around the listener's neck; it will interact with the listener's telecoil.

Step Three: Turn on by holding down the power button for one second; turn off by holding down for three seconds.

Step Four: Adjust volume with the volume buttons on the front of the receiver.

★ PRO TIP:

Make sure your iDSP IR Receiver is worn on the outside of clothing for the best performance.

4 Charging your iDSP IR Receiver

There are two ways to charge your iDSP IR Receiver.

Option One: Use the 4-Port USB Charger and USB to Micro-USB charging cables. Insert the charging cables into the receiver and charger, then plug into an outlet to charge.

Option Two: Use the USB to Micro-USB charging cables with your PC. Insert the charging cables into the receiver, then plug into the USB on your computer.

★ PRO TIP:

It is best to let the receivers charge fully between each use.
